Social and Behavioral Scientist Administrator/
Program Officer
GS-0601-12-15

Scan me

The National Institute on Aging (NIA) is **HIRING!**
We are expanding our team by adding several positions
to grow with our Institute.

Position duties include:

- Developing, expanding, and overseeing programs, performing computational research, and managing clinical trial portfolios.
- Collaborating with other NIA Divisions to address common research challenges.
- Devising programs, overseeing applications and awards, and interacting with the scientific community at meetings and workshops and participating in the NIA and NIH.

An ideal candidate has:

- A degree (preferably a Ph.D. or equivalent) in health or pertinent sciences (i.e., neuroscience, biology, genomics, etc.) allied to health, health related research, behavioral and/or social sciences.
- Recognizable accomplishment and career progression in a research activity related to health or biomedical/behavioral sciences.
- Ability to communicate effectively, to plan, initiate, administer, and evaluate a scientific program successfully.
- Familiarity with the dynamics of health-related research.

Please send Resume and Letter of Interest to niajobs@mail.nih.gov
